

# Graphs for Amita's paper - with data from U Laval

Karen Cristine Goncalves dos Santos

Apr 26 2020

## 2) BoxPlot before and after normalization.

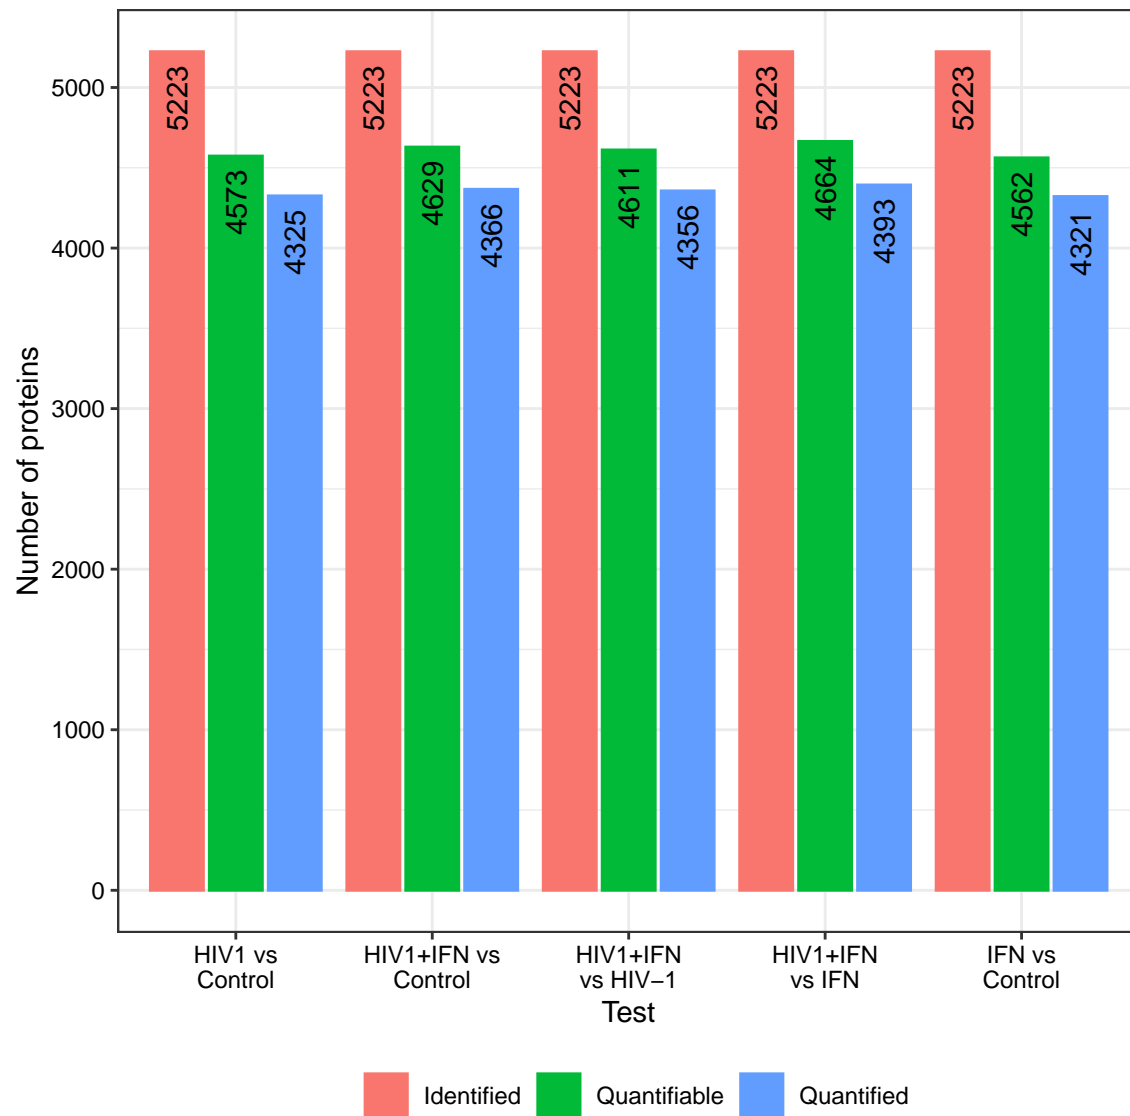

### 3) PCA analysis

#### 4) Number of quantifications for each sample

## 5) Number of variant proteins for each comparison

6) Volcano plots

7) Heatmaps

Single heatmap with all proteins (deregulated or not)

## pdf  
## 2

## pdf  
## 2

Single heatmap with only deregulated proteins

## pdf
